To whom this may concern,  
we live in a free market economy. As a satellite radio subscriber, I value the service that is provided to me by XM Radio. They offer quality programming. America speaks when they vote with their dollars. I vote with mine as a subscriber of XM Radio. Quality programming at an affordable price and virtually commercial free.

I urge the FCC to reject the NAB's petition 04-160. Rather, in the spirit of a free market economy, I invite and welcome competition so that as an American, I'll have more choices in the future. Perhaps the NAB ought to focus their resources on innovating new solutions that meet real needs that Americans are willing to pay for.
